Initiatives

 Incorporating Mental Health Monday's will offer engaging activities, resources, and workshops—planned in advance with student input—it aims to reduce stigma, encourage self-care, and promote a supportive school community year-round.

 Developing a reliable online source through social media, it will provide accessible resources, positive and trustworthy community, and promote healthy habits to improve mental health.

 Having annual campus mental health audit will systematically evaluate and improve mental health services culture through data-driven analysis, stakeholder collaboration, and actionable reporting
