Siena College is a learning community advancing the ideals of a liberal arts education, rooted in its identity as a Franciscan and Catholic institution.

**As a learning community**, Siena is committed to a student-centered education emphasizing dynamic faculty-student interaction. Through a blending of liberal arts and professional education, Siena College provides experiences and courses of study instilling the values and knowledge to lead a compassionate, reflective, and productive life of service and leadership.

**As a liberal arts college**, Siena fosters the rigorous intellectual development of its students through a healthy exchange of ideas both inside and outside the classroom. It provides opportunities to develop critical and creative thinking; to make reasoned and informed judgments; to appreciate cultural diversity; to deepen aesthetic sensibility and to enhance written and oral communication skills. It develops in each individual an appreciation for the richness of exploring knowledge from a variety of perspectives and disciplines.

**As a Franciscan community**, Siena strives to embody the vision and values of St. Francis of Assisi: faith in a personal and provident God, reverence for all creation, affirmation of the unique worth of each person, delight in diversity, appreciation for beauty, service with the poor and marginalized, a community where members work together in friendship and respect, and commitment to building a world that is more just, peaceable, and humane.

**As a Catholic college**, Siena seeks to advance not only the intellectual growth of its students, but their spiritual, religious, and ethical formation as well. To this end, Siena is composed of and in dialogue with people from different religious and cultural traditions; encourages critical reflection on religious experience; provides ample opportunities for worship and service; explores the moral dimensions of decision-making in business and the professions; and affirms the dignity of the individual while pursuing the common good.

**The Franciscan Tradition**

As a Franciscan community, Siena strives to embody the vision and values of St. Francis of Assisi. Within Academic Community Engagement, Francis inspires us to commit to building a world that is more just, peaceable, and humane. In his time, Francis encountered a variety of people and situations that inspired him to work alongside the poor and marginalized. They showed Francis a meaningful life of service and Francis taught his brothers how to live this life. Academic Community Engagement strives to carry forward the tradition of Francis. Our variety of programs give faculty, staff, students, and volunteers the opportunity to become a modern day Francis - learning about social justice issues and being part of a community-based solution.
Siena College Honors Program

The Honors Fellows complete a combination of Honors courses, service activities, and a culminating Honors Thesis.

Alpha Kappa Alpha membership is the highest award granted to our graduates. Alpha Kappa Alpha members are students who have achieved academic excellence throughout their college years. They also have demonstrated an awareness of the problems facing society and a sincere concern for others. AKA members have contributed in a special way to Siena and to the broader community by active participation in extracurricular activities. In other words, these students embody the Franciscan traditions that are the foundation of every Siena graduate’s education. They have been selected upon the recommendation of a select committee of faculty, students, and administrators.
