Our Philosophy

It's all about fresh food and hospitality

Mirroring a commitment to the highest quality education, the Siena Fresh vision is centered on our Fresh Food Forward model. Skilled culinarians prepare nutritious meals from scratch with the freshest ingredients. We artfully prepare foods in full view of our customers, displaying showmanship and precision in all that we do. We engage in sustainability practices, use antibiotic free poultry, source locally, seek out Fair Trade products, and provide compostable paper products. Fresh is more than a mode: for our team, it's a way of life.

Every day, we engage and interact with our customers to create a unique experience. Siena Fresh team members are hospitality-minded, focusing on creating a welcoming environment where smiles and good, fresh food are always found.
