*Brief Overview of the Policy

Reason for Policy

To provide information, deadlines and protocols regarding the Summer Session schedule, Summer Scholars Program, student summer employment and housing, and the High School Scholars Program.

Scope of the Policy: Entities or Individuals affected by this policy:

All members of the Siena College community

The Official Policy

SUMMER SESSION STUDENT POLICY – 2024

SIENA SUMMER SESSION

The academic Summer Session is administered annually by the Office of the Provost and Academic Affairs (Summer Session Coordinator), with coordination through the three Deans, the School Offices, and the Office of the Registrar. Five academic terms are being offered during Summer 2024: two 4-week terms, two 6-week terms, and one 8-week term.

Deans recruit interested faculty members during November and December to allow for initial compilation of the Schedule of Classes. An emphasis each year is placed on offering various Core courses, as well as a variety of other courses and major required/elective courses, in addition to independent studies and internships. Such diversity in offerings is beneficial to increasing enrollment, and affording opportunities for part-time and returning adult students. Full-time faculty members are compensated with an overload stipend, and part-time faculty members receive an adjunct contract. School Offices are required to submit expected faculty member names for contract administration purposes to the Office of Academic Affairs by mid-March, for budget planning/contract preparation.

Registration for classes is conducted through BANNER, in conjunction with Fall Semester registration, and continues through the opening day of each term. Withdrawal and refund policies are published by the Registrar in conjunction with the Summer

Schedule of Classes. Schedule information is published by the Office of the Provost and Academic Affairs, updated as required, and posted at www.siena.edu/summer. Final grades for all courses are to be submitted to the Office of the Registrar by Web for Faculty within one week of the end of each course. There are no Mid-Term grades used during Summer Session.

SUMMER TUITION RATES

The undergraduate part-time tuition rate is discounted to \$600/credit hour (\$1,800 for a 3-credit course and \$2,400 for a 4-credit course) for a single course taken during the summer session. Undergraduate internships and independent studies are also \$600/credit hour during the summer. Regular part-time tuition during the fall and spring semesters is \$675/credit hour. *Graduate courses are not eligible for the discounted rate*.

*The summer tuition rate is only available for courses taught at Siena College.

Take More than one course and save even more.

Students taking a second or third course from any of the undergraduate summer session offerings receive an *additional* discounted rate of only \$300/credit hour on those added courses. Taking two 3-credit courses would be \$2,700 and three would be \$3,600 (a potential savings of up to \$2,475).

Students may only take one 4-week course at a time prior to seeking approval from the Provost's office.

These rates only apply to students taking **less than 12 credits** over the entire summer. If a student registers for more than 11 credits, they are considered a full-time student and **FULL-TIME TUITION RATES** will apply. Students who choose to be full time during the summer must register through the Office of Academic Affairs in Siena Hall 202, and not through self-service. Please see the Siena College Catalog for full-time tuition rates and fees.

Fees: A College Registration Fee of \$110 is applied to all part-time student registrations, per semester. See College Catalog for a list of all applicable fees.

SUMMER SCHOLARS PROGRAM

The *Siena Summer Scholars Program* promotes inquiry and creativity by supporting scholarly activity in which faculty members and students collaborate during the summer.

Program Details and Eligibility

The proposal should be created by the mentoring faculty member, following the instructions below, and then uploaded using the on-line application form found on the CURCA website – www.siena.edu/curca

Each proposal shall include:

- A title and abstract for the project.
- A statement describing the proposed research or creative activity.
- A work plan or activity timeline. A typical project's duration is 4-8 weeks with **6 weeks being the default**, though shorter projects will be given consideration. If additional time is requested beyond 6 weeks, this should be included in the proposal. Maximum number of weeks for a faculty member is a total of 24 student weeks.
- A description of student participation, expected learning outcomes, and ways in which results will be measured.
- A description of how the results of the activity will be disseminated (e.g., presentation by students and faculty at professional conferences, or publication in a journal or conference proceedings, exhibition, *Siena's Summer Research Symposium* [required], *Siena's Academic Showcase*, etc.)
- A description of the efforts that will be made to leverage this work to seek external funds and continue/expand this work (if this is appropriate).
- A budget statement indicating the funds requested and how this money will be used. Typically, CURCA is unable to fund research-related expenses, but please include them if appropriate. Alternate sources of funding may be recommended. (Please see stipend information below.)

Summer Scholars Eligibility Information:

- Faculty receiving funds must be returning as a full-time faculty member in Fall 2024.
- Students must be returning full or part-time students in good academic standing for Fall 2024.
- Applications from faculty who received support during the previous Summer Session will be considered but may have lower priority. (This will depend on demand and available funding.)

Summer Scholars Stipend Information:

- Students will receive payment in the form of a stipend as a Research or Project Assistant. The student stipend is taxable to the extent described by the IRS, but taxes will not be withheld. Form 1099-MISC will be issued to the student for tax purposes.
- Student stipends are \$525 per week and will be paid to the student in 2-4 installments, depending on the length of the project.
- The maximum faculty stipend is \$1000. Faculty stipend award may be less for projects of shorter duration.
- A possible budget statement might, for example, request \$1000 for the faculty member and \$3,150 for a student participating in a 6-week project. Another proposal might request \$500 for the faculty member's time and \$2,100 for a student participating in a 4-week project.

Summer Scholars Important Dates:

CALL FOR PROPOSALS: January 22, 2024

DEADLINE FOR SUBMISSIONS TO CURCA: March 15, 2024

NOTIFICATION OF AWARD: April 19, 2024

SUMMER SCHOLARS PROGRAM DATES: May 28, 2024 - August 2, 2024

SUMMER RESEARCH SYMPOSIUM: October 2, 2024

FACULTY MENTOR TO SUBMIT REPORT ON ACCOMPLISHMENTS: October 11, 2024

Please Note for Summer Scholars:

- Maximum stipend per student = \$3,150 for 6 weeks.
- All projects should have a default time of 6 weeks. If a faculty member requests more than 6 weeks, please put the justification into the proposal with a plan for 6 weeks, and then what can be accomplished with additional time. If funds are available, projects may receive funding for the requested additional time.
- Students who decide to live in campus housing are responsible for the cost of housing and board.
- The student stipends are taxable to the extent described by the IRS.
- Students will be required to participate in the *Summer Research Symposium* in the Fall of 2024 and to complete a reflection paper at the end of the summer research experience. Further, their participation in CURCA seminars is expected. (www.siena.edu/curca)
- The faculty member must submit a report on what was accomplished with the funds by October 11, 2024. The College is understandably interested in the impact these funded activities have on our students. Additionally, we compile information on the students and faculty who have been, and will be, involved. In the final report, it is worth noting how involvement in the Summer Scholars Program may have affected their career/education plans.
- The Director of Grants and Sponsored Research is available for consultation regarding external funding possibilities after summer 2024.

SUMMER SESSION STUDENT STATUS

Students enrolled at the College during the academic Summer Session are responsible for compliance with all Siena College student policies, contained in *Siena Life*, and other pertinent policies. Additionally, students not enrolled in a specific course, but participating as a student researcher/participant under the *Siena Summer Scholars / Summer Service Scholars Programs* or other similar Summer Research Programs / Independent Studies, or participating in other College-sponsored activities, including their receiving housing and meal plans, are also subject to the same compliance requirements.

STUDENT EMPLOYMENT

The College Work Study Program is only available during the fall and spring semesters. Students may be employed during the summer under the College's "regular" payroll program, processed by the Business Affairs Office. Student employment policies are available for review at https://www.siena.edu/policies-procedures/student-payroll-policies-and-procedures/

STUDENT HOUSING

Summer housing dates will be May 28 through July 26. Students must arrange their internships, employment, or research to correspond within these dates. Students are not required to live on campus during the summer.

Summer Housing Policy: Students are eligible to reside in College housing during the summer if they meet one of the following categories:

- 1. Employed (either on-campus or off-campus).
- 2. Enrolled in at least one summer course at Siena College.
- 3. International Student
- 4. Student Athlete (as approved by the Athletics Department).
- 5. Participating in an internship program.

6. Participant in a Summer Research Program/Siena Summer Scholars

Program/ Siena Summer Service Scholars Internship Program /approved
Independent Study.

All students requesting Summer Housing are to submit a Housing Request to the Office of Community Living. For more information about summer housing, see https://www.siena.edu/offices/community-living/summer-housing/ Upon the completion of the academic Summer Session, or when their courses / internship / research activities are completed, all students are required to vacate college housing. Any request to remain in summer housing after the defined dates should be addressed to the Office of Community Living.

Community Living Summer Staffing Support Plan

The Office of Community Living selects Summer Community Assistants (CA), who are charged with maintaining a presence in the assigned Summer Session residence building, assisting student check in/outs, and serving on duty in the evenings, etc. A Residence Hall Director (RD) is also on call, (reachable by cell phone 24/7) to assist Public Safety/Summer CAs in responding to student emergencies /concerns. Students residing in residence halls are responsible for adhering to all policies contained in *Siena Life*.

Summer Housing COVID-19 Protocols

Vaccination Requirement: While Siena College does not require the COVID 19 or flu vaccine, we strongly encourage students to be vaccinated as a way to protect themselves and the community against contracting either respiratory virus.

Isolation Protocols: Students who test positive will be placed on medical leave and must isolate per CDC requirements. Residential students will need to implement their isolation plans and leave campus to complete their isolation. Student Life will notify a student's faculty members of their medical leave, per the College's Medical Leave Policy. Once cleared to return from medical leave and isolation, students should continue to wear a mask for an additional 5 days. Roommates should monitor for symptoms and contact Health Services if they begin to feel ill/symptomatic.

Summer Meal Plans

Siena offers three summer meal plans to meet the needs of our students. Students can select from 5 meals/week, 10 meals/week, or 15 meals/week. Summer meal service is provided Monday-Friday only. Meals on weekends are not provided.

Housing Charges

There are three options for summer housing billing based on the meal plan choice: 1) Summer Housing with the 5-meal plan is \$210/week. 2) Summer housing with the 10-meal plan is \$250/week. 3) Summer Housing with the 15-meal plan is \$300/week.* Padua Hall has been designated for summer housing. Padua Hall offers triple-occupancy rooms, private (in-room) bathrooms, and air conditioning. The building also contains plenty of lounge space, study areas, a kitchenette, and a proportioned fitness center.

Charges are billed on a weekly basis (Sunday – Saturday). If a student departs housing during the week, he/she will continue to incur charges until that week's billing period ends (the Saturday following the check-out). Departments may not reimburse students for summer housing and/or meal plan costs or pay these costs directly, except for those students already identified in the "Student Employment Policy." Please note that for Summer Research students, the cost of their housing/meal benefit is considered taxable compensation. All inquiries for housing/meal charges which fall under the "Student Employment Policy" must be directed to the Associate Director / Coordinator of Student Accounts in the Office of Business Affairs.

* Prices subject to change

Early Arrival Waivers

Community Assistants, fall season student-athletes and other students, required to receive training immediately prior to the beginning of the fall semester, may request to arrive on campus before the fall semester begins and may be provided with room and board. All departments that require on-campus student training are encouraged to conduct the training during the spring semester before the students leave campus, if possible.

SIENA HIGH SCHOOL SCHOLARS PROGRAM

Courses are open to highly qualified and motivated high school juniors and seniors, whose high school counselor or principal recommends them for college-level study. A limited number of seats are available. The objectives of the program are to allow students to explore new subject areas, possible career opportunities, or study a subject in greater depth than may be possible in high school, and to provide students with college campus experience.

Currently, a Siena College three-credit undergraduate course would cost \$2,025. Students registered for the High School Scholars program receive a discounted rate of just \$750 per course, plus the cost of any textbook(s). Students will receive a letter grade and full college credit for a completed course. Tuition costs are subject to change prior to the start

of Summer Session. Instructors will be advised of a High School Scholar in their classes.

Credit earned will appear on a Siena College transcript. Students receive a Siena I.D. card for the duration of their enrollment that will entitle them to full privileges on campus, which include use of the Marcelle Athletic Complex, computer labs, student computer accounts, the J. Spencer and Patricia Standish Library, and more. Registration of students is managed by the Registrar's Office Staff. The office can be contacted at registrar@siena.edu or (518) 783-2312. There is no option for residential status.
